FEB 11 1981

The applicant PROQUIP INC. c/o Bart Conn

13417 Lincoln Way

Street and No. or P.O. Box No.

, of Auburn

City or Town

California 95603

State and Zip Code No.

hereby make S application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Nevada 1974

1. The source of the proposed appropriation is underground

Name of stream, lake or other source.

2. The amount of water applied for is 1.0 c.f.s.

second-feet

One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

acre-feet

3. The water to be used for mining, milling and domestic

Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks") mining, milling and domestic

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section

17, T.33N., R.36E., M.D.B.&M. or at a point from which the Northeast

corner of said Section 17 bears N44°30'E 1,835'.
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.

6. Place of use all of Section 17, T.33N., R.36E., M.D.B.&M.

Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1st and end about December 31st, of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) drilled well and pipeline to various mining and milling locations within Section 17.

State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

9. Estimated cost of works in excess of \$1,000.00
10. Estimated time required to construct works three (3) years
If well completed, describe works.
11. Estimated time required to complete the application to beneficial use five (5) years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Annual consumptive use will be approximately 235.9 million gallons.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 1.0 cubic feet per second, but not to exceed 235.9 million gallons annually.

Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or before June 7, 1988

Proof of completion of work shall be filed before July 7, 1988

Application of water to beneficial use shall be made on or before June 7, 1990

Proof of the application of water to beneficial use shall be filed on or before July 7, 1990

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed..... IN TESTIMONY WHEREOF, I, PETER G. MORROS
Completion of work filed..... State Engineer of Nevada, have hereunto set my hand and the seal of
